Dear Parents/Carers

Re: Sex and Relationship Education

As you may be aware, there has been a change in the guidance for schools in relation to teaching SRE (Sex and Relationship Education) so that the needs of young people are more accurately met. With a view to supporting all Healing School pupils in living safe, healthy lives whilst managing their academic, personal and social lives in a positive way, Healing School seeks your feedback on the updated curriculum.

Parents/Carers are the prime educators on many aspects of SRE and the school works in partnership with you to ensure that all pupils have substantial knowledge on this topic by expanding on what has already been discussed and/or touched upon at home. The school's updated plans can be found on our website, including:

1. An outline of topics taught from Years 7 to 9
2. Key learning objectives for each topic
3. Sample lessons covering new guidance for SRE
4. Proposed new school policy on SRE

Please also be aware that some aspects of the curriculum are mandatory and whilst the school has some flexibility, certain areas must be covered in lessons. If you would like to share your feedback with the school, please use the survey link before 8th January 2021.
