

W/C: 23/03/2020

Subject: Mathematics

Teacher: Mrs Maddison

Class: 11MA4

Instructions – Week 1

Please logon to Google Classroom (class code – **efahex6**) and complete the exam paper in test conditions. Allow an hour and a half to complete – either print the paper or complete it in your book. The mark scheme will be uploaded by the end of the week please mark your work with your green pen and purple pen any corrections. Use this to set yourself targets from the paper of topics you still need work on.

Spend an hour and a half (split into half hour chunks where possible) on the booklet of questions provided in class (from Access Maths). Again you can use this to add to your list of topics that still need work.

Spend the remaining hour working on Hegarty maths to complete tasks on your targets/list of topics. Use your RAG sheet and the list in the back of your exercise book to help you with which topics to choose, as well as the topics you picked from the exam paper and question sheets.

If any help is required, please email maddisonl@healing-school.email and I will aim to reply at least every 2 days.

Instructions – Week 2

As above.
