

W/C: 23/03/2020

Subject: Mathematics

Teacher: Mrs Kay

Class: 11MA7

Instructions – Week 1

The key focus should be revision and working on grade 3/4. Pupil have lots of resources in their blue folders including, revision guides past exam papers, question packs, mind maps and they should be continuing with independent revision alongside the following work.

Please log on to Hegarty Maths and work through the 'number' strand this week you could make yourself a mind map like we have together. Watch the videos when needed and complete a variety of tasks. Ensure that you green and purple pen your work as you go to make sure you understand how to improve. Please include a www and ebi at the end of each task.

Feedback will be provided on Hegarty each week and pupils can request help by submitting a comment or by emailing kayd@healing-school.email

Please also logon to Google Classroom (code – **2eouv3q**) and complete the Non-Calculator exam paper uploaded in exam conditions. This should take an hour and a half and you can either print the paper or complete it in your book. The mark scheme will be uploaded by the end of the week please mark your work with your green pen and purple pen any corrections. Make a sensible list of targets you still need to work on.

Pupils should spend roughly 4 hours on maths per week if you complete this much quicker then pupils should try to improve previous Hegarty tasks by clicking 'My scores' or complete tasks on their known targets for improvement. Also available on Google Classroom are lots of revision resources that I will update regularly.

Instructions – Week 2

The key focus should be revision and working on grade 3/4. Pupil have lots of resources in their blue folders including, revision guides past exam papers, question packs, mind maps and they should be continuing with independent revision alongside the following work.

Please log on to Hegarty Maths and work through the 'Statistics' strand this week you could make yourself a mind map like we have in lesson. Watch the videos when needed and complete a variety of tasks. Ensure that you green and purple pen your work as you go to make sure you understand how to improve. Please include a www and ebi at the end of each task.
