

## Year 10 – Art – Mr Nel

Please note: these tasks should last at least 20 minutes to an hour each.

1. You are all doing different topics to each other, but you all need to show that you are able to research, and use what are called the “Basic elements of art”.
2. Choose one of the “basic elements” and produce a piece of work for your sketchbook/project using that specific element.
3. Use the internet to research a drawing or painting technique that you have never tried before. Do NOT do an acrylic pouring technique over your parent’s best carpet! They will never forgive you! Be sensible what you do eg. look at some of the “Hyper-realism” examples.
4. Repeat the above instructions using a different element or technique.
