

Curriculum Information Science - Key Stage 3 – Year 7

Each pair of units has an assessment that will be carried out during a lesson to help us monitor progress of pupils.

Pupils are taught at the beginning of year 7 in their teaching groups. We set for science at the end of the first group of units.

Year 7	Units studied	Resources
Term 1 - During the introductory unit of lessons there will be a baseline assessment during lessons. Pupils will study three of the four listed units and start the final one.	Introduction to Secondary Science	Unit Checklist, notes in exercise book, pupil shared area and dynamic learning online resources.
	Forces	
	Electromagnetism	
	Matter	
Term 2 – pupils will complete the final unit from term one and study two of the next group of three units. They will start the final unit before the Easter break.	Organisms	Unit Checklist, notes in exercise book, pupil shared area and dynamic learning online resources.
	Ecosystems	
	Reactions	
Term 3 – pupils will complete work on the final unit from term 2 and study the final group of units listed.	Energy	Unit Checklist, notes in exercise book, pupil shared area and dynamic learning online resources.
	Genes	
	Earth	
	Waves
